

MIKE THE MONARCH

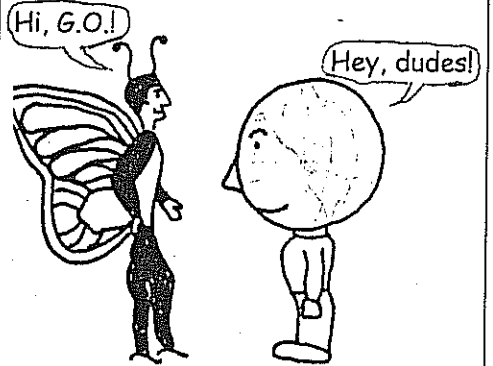

Making a world of difference

Let's prepare for our harvest festival--to give thanks for the great things we have!

Look! It's our buddy, G.O. Metric!

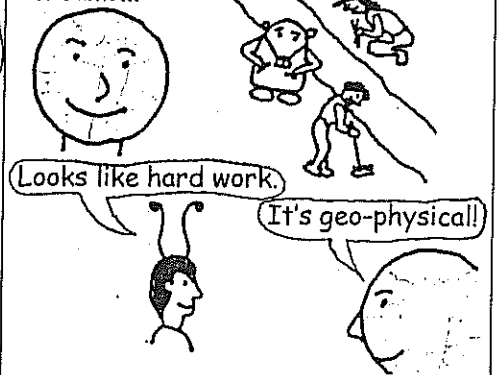

I'm always ready for a feast--lots of Turkey, not too much Greece, a big bowl of Chile...

What are you most thankful for, G.O.?

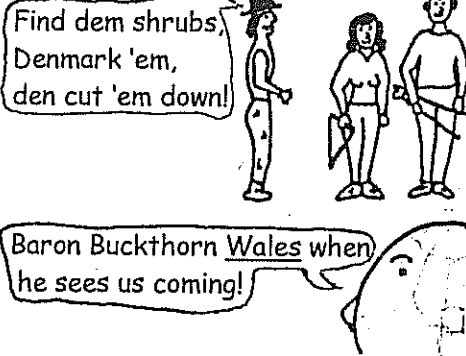

Czech this out; people are working hard to clean up my rivers and streams...

Folks are conserving resources...

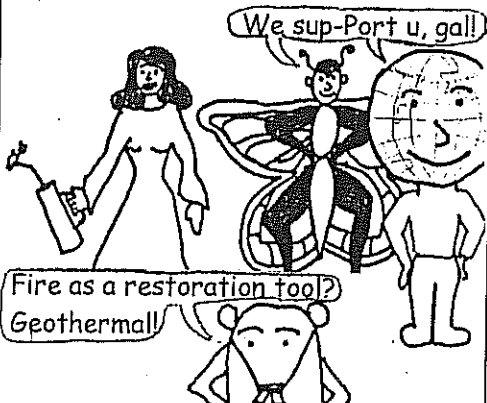

Volunteers are cutting invasive brush from my forest and prairies...

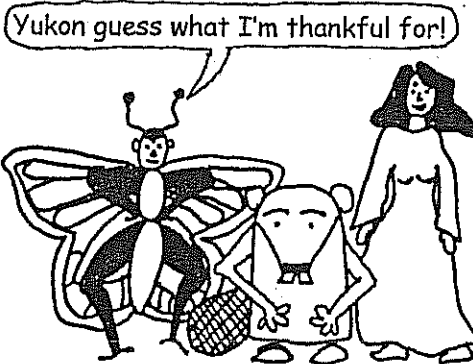

They're fighting invasive enemy weeds like the Garlic Mustard Gang

Natural forces like fire have made a comeback

So it's Geo-logical! The Good Old Earth has lots to be thankful for!

Thank you, volunteers!
